SAM KORT

SOFTWARE ENGINEER

ABOUT ME

My name is Sam. I'm a software engineering student based in Amsterdam, The Netherlands. As a Software Engineering graduate, I bring a solid foundation in Java, Algorithms & Data Structures, and Teamwork & Communication. My educational background equips me with the technical expertise essential for developing efficient software solutions. I am eager to leverage my skills and experience to contribute meaningfully to innovative software development projects within a dynamic team. Please feel free to contact me if there is an available position. I am eager to discuss how my skills and experience can contribute to your team.

EXPERIENCE

JUNIOR SOFTWARE DEVELOPER @ WOODWING

WoodWing helps organizations simplify and accelerate the production, management, and distribution of content across multiple channels, helping them stay efficient in those areas

2023 - Present

- Implementing Single Sign on Solution
- Being cloud first using Amazon Web Services
- Agile scrum team
- Experience with Java, Kotlin, Angular and more

MINOR ARTIFICIAL INTELLIGENCE

Project creating & implementing AI to detect parked cars and detect available parking spaces

2023 - 2024

- Machine learning & Deep learning
- creating AI to detect and create images
- Deeper understanding of the Mathmatics behind AI
- Object detection using various models

MINOR BLOCKCHAIN DEVELOPMENT

Project about finding vulnerabilities in contracts and cryptography using tools.

2022 - 2023

- Scanning for vulnerabilities in Solidity contracts
- Using external tools to find security and cryptography issues
- Designing web applications API within a blockchain
- Using solidity contract to create applications

EVENT MANAGMENT @ MCI

MCI is a event managment company. They arranged events like CES Unveiled at the Beurs van Berlage in Amsterdam

2016

- Helped at the front door so that people could sign in for the event
- Helped manage the event by guiding people
- First experience with enterprise web development, networking and security
